

Dear Parents,

Well done to Tyler, Jasmine, Isabelle, Abbie, Jimmy and Jackson who competed at the Nyngbar Athletics Carnival. It was a pleasure to watch students showcase their athletic skills, and more importantly, their sportsmanship as they celebrated the success of others. Students who have qualified for WSSA trials in Dubbo on Friday 20th September have received permission notes this week.

Last week we celebrated the wonderful work our SASS team do each and every day to support our students. Thank you Kerrie, Monique, Kristin & Tim! Your dedication and enthusiasm for what you do is truly appreciated.

We are very lucky to have Monique as our photographer for our upcoming school photos on Tuesday 17th September. Many thanks to Monique for her organisation and time to make this possible for our school. Please ensure students are wearing full school uniform including school polo, navy pants or school skirt.

Bushfire danger period information for parents and carers

Fact sheet

This factsheet provides information for parents and carers about arrangements for the danger period.

The NSW Department of Education has engaged external experts to conduct assessments of all NSW government schools, to identify schools at greater risk of impact from bushfires.

To support the health, safety and wellbeing of students and staff, the department, in consultation with NSW Rural Fire Service (NSW RFS), will direct the school to temporarily cease operations on days when a Catastrophic Fire Danger Rating has been declared for your school's NSW fire area. Alternative learning arrangements will be put in place for these days.

Schools may be made non-operational due to changing risk conditions and the relevant advice from emergency services.

What is a Fire Danger Rating?

Fire Danger Ratings describe the potential level of danger should a fire start. The ratings are determined by a combination of factors including air temperature, relative humidity, wind speed and drought.

For further information on the Australian Fire Danger Rating System.

When will I know if my child's school has been made non-operational?

A Fire Danger Rating is issued for the following day. This means that schools, including onsite preschools, will be notified after school hours that it will be non-operational the following day. Your school will notify you as soon as possible by the preferred method of communication.

- Parents and carers are requested to:
- provide up-to-date home and after-hours contact details to your school
- stay up-to-date with news and local media through the bushfire danger period.

Consider whether your home is safe from bushfires and grassfires, and be prepared to relocate to a safer place well in advance. Find more information and resources from the NSW RFS.

We appreciate your cooperation during the bushfire season. For further information about Fire Danger Ratings and the bushfire danger period, please refer to 'NSW Rural Fire Service'

The department's 'School operational status' webpage provides up to date information during bushfires and grassfire emergencies.

Please contact your school with any additional questions.

NSW School Updates app

Get the free NSW School Updates app to receive operational status updates for NSW public schools.

What education arrangements will be in place if the school is non-operational?

When non-operational, your school will advise of alternative learning arrangements, including any relocation or learning from home plans.
